

## SHREDDER CERON TYPE 306

### DIMENSIONS

Chassis	Static
Total weight (kg)	28000
Length (mm)	7700
Width (mm)	3068
Height (mm)	4190

### DRIVE

Engine type	Three-phase motor
Motor power (kW / PS)	315, 400 / 428, 544

### ROLLER

Number of rollers	1
Roller Length (mm)	3000
Roller Diameter (mm)	600 / 800
Number of roller teeth	depending on the equipment

## Applications

The shredders of the CERON series process waste wood, logs, roots, green waste, biowaste, garbage, bulky and industrial waste, mixed construction waste and much more. The shredders of the CERON series are suitable for all tasks in the areas of mechanical-biological recycling, biomass, surrogate fuels and demolition of disposal sites.

## Advantages

- Universally applicable – shredding of various materials
- Versatile for use thanks to a great setup variety, a wide range of tooth shapes, drive gear systems, stands or lower belt conveyors
- Low energy consumption through efficient, frequency-controlled direct drive
- Solid machine chassis guarantees long life time
- Service and maintenance-friendly thanks to the comb flap gate enabling a direct access to the shredding tools. The shredding roller can be driven in inching operation thus facilitating the tool change.
- Customizable for many different installations both new and existing
